Direct Fire Crack Seal Kettles

Model 30 Gal. Skid Mounted Patch Kettle

Popular stationary model patch kettle. Ideal for small patch jobs, shower pans and high rise buildings. Allows the roofer to have dispense hot asphalt in those hard to reach areas. Includes L.P. vapor burner, 10' L.P. hose, thermometer and regulator. Available insulated or non-insulated. Insulated kettles melt approximately 30% more "HOT" than non-insulated.

30 Gal. Skid Mounted Patch Kettle

Non-insulated K05750

Insulated K05850

Product Specs:

Overall Length: 58"

Overall Width: 22"

Overall Height: 35"

Weight: 130 Lbs

(for insulated models add 30 Lbs.)

Safety Tip:

Know the flash point of the material you are melting and don't let the temperature of the material exceed 50° Fahrenheit **below** the material manufacturer's stated flash point. Failure to comply may cause the material to flash and catch fire.
